Supply Chain Transformation
through Education

www.pmi-m.de/en/sclcd/

Step into the world of supply chain excellence with the **Supply Chain Learning Days**

This enriching multi-day evening program brings together a gathering of **foremost experts**, **experienced trainers**, and **dedicated supply chain professionals** from PMI public seminars. Join us as we delve into the forefront of supply chain management, uncovering cutting-edge trends, effective strategies, and proven best practices.

But that's not all! Beyond **insightful discussions**, the Supply Chain Learning Days offer **exhilarating visits** of production facilities, distribution centers, and ports/airports, providing you with an **immersive experience into the heart of supply chain operations**.

This event is your golden ticket to expand your network, exchange invaluable experiences, and chart new horizons in the dynamic field of supply chain management. Don't miss the opportunity to **connect, learn, and transform!**

11.-14.3.2024: Hamburg
10.-13.6.2024: Munich
16.-19.9.2024: Hamburg
2.-5.12.2024: Munich

EXPERIENCE THE THIRD LARGEST CONTAINER PORT IN EUROPE

Around 9,000 ship calls per year, almost 300 berths and a total of 43 kilometers of quay for seagoing vessels, more than 1,900 freight trains per week, four state-of-the-art container terminals, three cruise terminals and around 60 facilities specialized in handling ro-ro and breakbulk and all kinds of bulk cargoes – these are just a few of the factors making the Port of Hamburg to one of the world's most flexible, high-performance universal ports. 137.8 million tons of cargo crossed the quay walls of Germany's largest seaport in 2015. That included around 8.8 million standard containers (TEU). Join this networking event and discuss the state-of-the-art production methodologies and how the APICS body of knowledge relates to this. We are happy to answer any questions!

DISCOVER THE EXCITING WORLD OF AIRBUS

Aircraft manufacturing up close! Go behind the scenes with PMI and experience the production and assembly of Airbus aircrafts on an Airbus site tour. The plant Hamburg-Finkenwerder is located on the south bank of the river Elbe at the gates to the city. Experience an exciting insight into the interior structure and final assembly of the A320 to A380 family on a tour of the site. Or marvel at the A380 from close quarters. Join this networking event and discuss the state-of-the-art production methodologies and how the APICS body of knowledge relates to this. We are happy to answer any questions – we are sure there will be a lot of them!

EXPERIENCE THE ART OF BREWING IN PERSON

The German purity law is well-known all over the world and has ensured the quality of beer "made in Germany" for 500 years! Enjoy an evening out exploring the world of beer production. From the brewing room and storehouse to the brewery museum and a relaxing time in the restaurant with traditional snacks and beer. Join this networking event and discuss the state-of-the-art production methodologies and how the APICS body of knowledge relates to this. We will be happy to answer any questions – and are sure there will be a lot of them!
