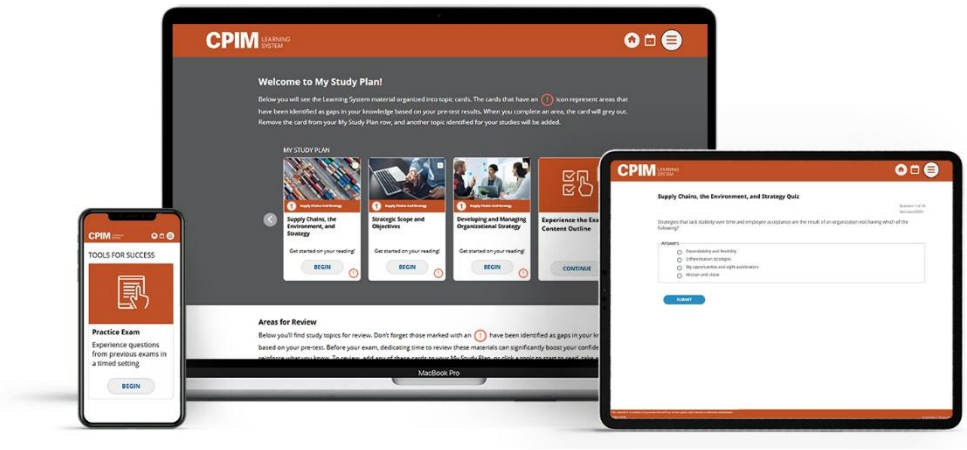
APICS Certified in Planning and Inventory Management

"PMI Selfstudy & Exam Package"



The **PMI CPIM Selfstudy & Exam Package** is recommended to customers who want to prepare for the CPIM exam as a self-learner. The anticipated **preparation time** is about **110-140 hours**, depending on the learner's pre-knowledge and learning style. An **English B1 level (CEFR)** is required. The study time is mostly spent in the **APICS CPIM Online Learning system** (see information below). The CPIM designation is earned by successfully completing the **3,5-hour exam** consisting of **150 multiple choice questions**. The exam is computer-based and can be taken at a local Pearson Vue test center or as proctored OnVue online exam from home or office. A **free retake** is provided in case of failure**. PMI offers **180 min online exam preparation sessions** (once a quarter) where an APICS trainer runs through practice questions with the participants in small groups. The one-year ASCM Membership with certification upgrate gives access to the largest network of supply chain professionals and exclusive resources. The CPIM Selfstudy & Exam package includes in total:

- Printed **APICS CPIM Participant Books**
- One-year access to the **APICS CPIM Online Learning System**
- One-year **ASCM Membership with certification upgrade**
- 180 minutes online "**Exam Preparation Session**"

- **APICS CPIM Exam Credit***
- free "Second Chance" **CPIM retake exam****

Package price: 2.999€ excl. VAT (3.208,93€ incl. 7% VAT)
excl. shipment costs***

The **APICS CPIM Online Learning System** is a comprehensive professional development and exam preparation program. It consists of eight easy-to-understand modules, the APICS textbook pages, and web-based study tools that reflect the entire APICS Exam Content Manual (ECM). It provides learners with a deep insight into supply chain planning and manufacturing processes and inventory management within an organization. The web-based tools help learners to determine their initial level of knowledge, create a study plan based on the individual needs, reinforce the studies with practice tests, quiz questions and activities and track the learning progress through comprehensive reports.
